PROFESSIONAL SUMMARY

AWS Certified DevOps Engineer with a strong focus on Infrastructure Automation and System Observability. Proven track record of optimizing operational workflows in a high-compliance manufacturing environment (reduced error rates to 0%). Hands-on experience with Docker, Kubernetes, and Prometheus/Grafana, eager to design, automate, and deploy resilient CI/CD pipelines and scalable infrastructure for a global software environment.

CORE COMPETENCIES

- **Systems & IT Administration:** Microsoft 365, Active Directory (Basic), Windows/Linux (Ubuntu) OS, Hardware Provisioning & Maintenance.
- **Networking & Security:** LAN/Wi-Fi, VPNs, Endpoint Security, DNS, TCP/IP Protocols, VPC Configuration.
- **Infrastructure & Cloud:** AWS (EC2, S3, IAM), Docker, Kubernetes, Nginx.
- **Automation & Observability:** Bash Scripting, PowerShell, Prometheus, Grafana.
- **Troubleshooting:** Root Cause Analysis (RCA), Technical Support, Cross-Functional Communication.

CERTIFICATION

- **AWS Certified Cloud Practitioner | Amazon Web Services (Jan 2026)**
- **Validation Number: 2bb090a50e1f4d4885763d3b91e12cfd**
- **Verify at: https://www.credly.com/badges/4b4586f3-db85-412c-9579-1051a32c11f2**

PERSONAL EXPERIENCES

Hirose Electric (M) Sdn. Bhd. | Automation Engineer |Dec 2023 - Present
Automation Engineer in Engineering Department

- **Process Monitoring & Continuous Improvement:** Monitored production workflows and mechanical processes, identifying performance bottlenecks and implementing mechanical improvements to optimize production efficiency.
- **Root Cause Analysis (RCA) & Troubleshooting:** Investigated physical production defects and machine failures, applying structured problem-solving methodologies to deploy preventative design fixes.
- **Cross-Functional Project Management:** Collaborated with diverse engineering and production teams to gather requirements, manage timelines, and deploy mechanical system upgrades with zero unplanned downtime.
- **System Design & Integration:** Developed high-precision 3D CAD models, ensuring seamless mechanical integration within existing manufacturing frameworks.

KEY PROJECTS

Key Project:The Containerized Web App

- **Cloud Deployment & Containerization:** Architected and deployed a location-aware web application utilizing Docker and AWS EC2.
- **Secure Infrastructure:** Implemented backend API key injection and .env environment variable management to secure external API credentials from frontend scraping.
- **Version Control & CI/CD Fundamentals:** Managed application source code and infrastructure configuration via Git/GitHub, establishing a foundation for automated deployment pipelines.

EDUCATIONAL BACKGROUND

International Islamic University Malaysia (IIUM) **(Sept 2019 – Aug 2023)**
Bachelor of Engineering: Mechatronics Engineering (Honours)
CGPA: 3.32
